The Commission will discuss and vote to approve or deny charters based upon a review of the petitions, the interviews, previous school performance and achievement data, the SCSC Staff Recommendations, and any supplemental information requested from the petitioning groups.

In some circumstances in which SCSC Staff identify that a petitioner is capable of SCSC approval in the 2015 Petition Review Cycle but the petitioner needs additional time to complete requested actions, the SCSC may not vote to approve or deny a charter petitioner at its September meeting. In those cases, SCSC staff will continue to collaborate with petitioners that were not denied by the SCSC and will finalize a recommendation for the remaining petitioners as merited and the Commission will vote on SCSC staff recommendations as needed. Petitioners may be required to delay opening until the 2017-2018 school year.
